COMMERCIAL / RESIDENTIAL UCC **APPLICATIONS**

Dear Applicant,

The Commonwealth of Pennsylvania has established a Uniform Construction Code (PA UCC) since 2004. The application presented to you is a legal document for purposes of describing a construction project in order to receive a PA UCC building permit.

ALL AREAS MUST BE FILLED OUT AND COMPLETED BY THE APPLICANT.

NO local building department, inspector, plans examiner, permit tech, administrative assistant or building code official may alter or exchange information on the application.

Additionally, all necessary supplemental information required such as: sealed design drawings, sketches, engineered truss information, energy compliance information, workman's compensation (affidavit waiver), plot survey or sub-contractor information must be filled out properly and attached with the original application PRIOR to submission.

The applicant must present information regarding the cost of the project as well.

Our GOAL at CEA is to help assist in expediting your information as quickly and professionally as possible. Helping the local building department using accurate application information will help you receive your UCC permit more efficiently.
